Comments of Luis Barrios, Chief Executive Officer of Hoteles City Express:

"Our results reflect strong 1Q16 operating and financial metrics across all fronts for the Company. In particular, a notable increase of 10.7% in RevPAR was achieved through the combination of significant improvements in both rate and occupancy. Adjusted EBITDA growth of 23.1% was a standout result, representing a 32.7% margin, an improvement of 59 basis points compared to the same quarter last year.

Except for a small number of properties in locations oriented to the extraction of hydrocarbons in the Gulf of Mexico, all hotels in the chain benefited from a positive cycle in the tourism and travel industry across the country. This is due to the continuous progress in key demand generators for lodging throughout Mexico, specifically those related to consumption, exports, services and industry.

As for development, our installed room nights grew 10.6%, the result of the opening of 10 new hotels in the last 12 months. We remain focused on achieving our growth plan in 2016, aiming to open approximately 20 new hotels over the remainder of the year. Achieving this development objective is a priority for Hotels City Express in 2016.

During the first months of this year, we also made significant progress in our commercial strategy. We are particularly pleased with the double-digit increases in B2B platform, City @ccess and membership growth and redemptions in our frequent traveler program, City Premios. We will remain focused on supporting our sales force through all channels; however, our presence in digital channels is priority. We are working hard to ensure these strong first quarter results are the beginning of a record year for Hoteles City Express."

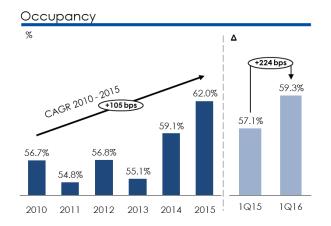

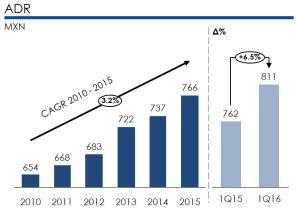

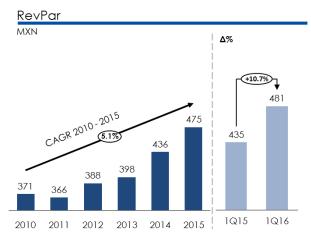

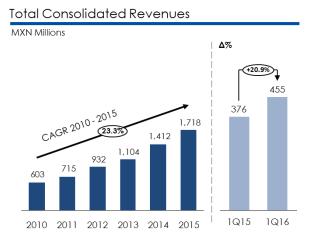

Operating Results: Hotel Chain

Chain occupancy showed a strengthening trend in the first quarter of 2016, reaching 59.3%. ADR and RevPAR registered solid gains of 6.5% and 10.7%, respectively, compared to the same period in 2015.

Operating Results: Established Hotels

To allow for an appropriate comparison of its hotels with similar maturity periods, Hoteles City Express defines as "Established Hotels" those hotels that, on a given date, have been in operation for a period of at least 36 months. It is believed that once hotels have reached the third anniversary of their opening date, they have usually achieved their stabilized cycle, although this does not mean that these hotels cannot reach higher levels of Occupancy and ADR over time. Similarly, hotels classified as "Nonestablished" are those that have less than 36 months of operation on a given date, and that are in a phase of market penetration, with greater potential for gains in RevPAR.

At the close of 1Q16, the chain had 72 Established Hotels and 34 Non-Established Hotels.

Established Hotels	1Q16	1Q15	Change
Hotels	72	63	14.3%
Rooms	8,232	7,096	16.0%
Occupancy	65.0%	63.5%	146 bps
ADR (\$)	796	743	7.2%
RevPAR (\$)	517	472	9.7%

During the quarter, Established Hotels had an occupancy rate of 65.0%, representing a growth of 146 basis points compared to the same quarter of the year before. RevPAR showed a gain of 9.7%, up from 7.5%, as compared to RevPAR at the Chain level in 1Q16.

Results by Business Segment (Non-IFRS figures)

Hoteles City Express reports using IFRS, so that during the process of consolidation certain revenues and inter-company expenses are eliminated, mainly management fees and franchise royalties of hotels that are owned, held in partnership and leased. The table below presents Results by Business Segment before these eliminations.

Revenues by Segment	1Q16	1Q15	1Q16 vs 1Q15

Hotel Management	110,814	84,160	31.7%

Revenues for the Hotel Operations segment increased 20.5%, going from \$363.2 million in 1Q15 to \$437.6 million in 1Q16, due to the increase in Occupied Room Nights, and a 6.5% increase in ADR.

Revenues from Hotel Management rose 31.7%, from \$84.2 million in 1Q15 to \$110.8 million in 1Q16, as a result of increased activity in Hotel Operations for the period, as well as growth in revenues for supervision in the development of new hotels

Total revenues for the combined segments rose 22.6%, from \$447.4 million in 1Q15 to \$548.4 million in 1Q16.

Revenues

In 1Q16, Total Revenues registered an increase of 20.9% from \$376.4 million in 1Q15 to \$455.0 million in 1Q16. This growth was mainly due to a gain of 10.6% in the number of Installed Room Nights, due to the opening of 10 hotels, as well as an increase of 14.9% in the number of Occupied Room Nights for the entire Chain in addition with a 6.5% rise in ADR.

Total Consolidated Revenues

Costs and Expenses

Total Costs and Expenses rose 19.3%, from \$315.7 million in 1Q15 to \$376.7 million in 1Q16. This increase was due primarily to the growth in Installed Room Nights, mainly in commercial areas.

Selling and Administrative expenses increased 27.7%, from \$56.3 million in 1Q15 to \$71.9 million in 1Q16. This increase is the result of greater expenditures for payroll, as well as operating and technological outlays in anticipation of the opening of hotels that will begin operations in coming months.

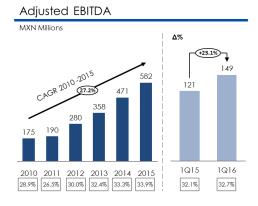

Operating Income

Operating Income for the first quarter of 2016 was \$74.6 million, in comparison with the \$58.6 million reported for 1Q15, representing an increase of 27.2% for the period. Operating Income margin rose 82 basis points, from 15.6% in 1Q15 to 16.4% in 1Q16.

EBITDA and Adjusted EBITDA

In 1Q16, EBITDA and Adjusted EBITDA grew by 22.0% and 23.1%, respectively, compared to the first quarter of 2015. EBITDA reached \$144.9 million in 1Q16, and Adjusted EBITDA \$148.6 million for the same period. This resulted in an EBITDA margin of 31.8% and an Adjusted EBITDA margin of 32.7%.

Hoteles City Express calculates its Adjusted EBITDA by adding its Operating Income to its expenses for

depreciation and non-recurring expenses related to hotel openings. Adjusted EBITDA is a useful measure that Hoteles City Express uses to compare its performance with that of other companies, thereby facilitating an appropriate comparison of its consolidated performance during different periods by eliminating from its operating results the impact of specific, non-recurring expenses related to hotel openings.

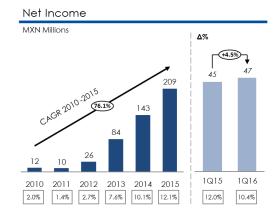

Financial Expenses

Total financial expenses increased to \$14.0 million in 1Q16. This is due to outlays from credit lines to support hotel construction. In the last twelve months, financial liabilities increased from \$1,838.9 million in 1Q15 to \$2,298.3 million in 1Q16, a growth of 25.0%. Along the same lines, net financing costs¹ rose from \$1.7 million in 1Q15 to \$14.1 million in 1Q16, and the net result for foreign currency exchange operations in 1Q16 yielded earnings of \$0.1 million, compared to a cost of \$0.5 million in 1Q15.

As of March 31, 2016, Hoteles City Express had a Total Debt to Total Asset ratio of 21.6%, and a Net Debt to EBITDA ratio of 0.0x. Accordingly, the Company is meeting all of its financial obligations.

Net Income

Net Income for 1Q16 came to \$47.2 million, compared to Net Income of \$45.2 million reported in the same quarter of the last year. Net Income margin reached 10.4% by the close of the quarter.
